- ☑ Web Performance Optimization
- ☑ Accessibility Standards
- ☑ SEO
- ☑ Prompt Engineering

WORK EXPERIENCE

ACCENTURE SOLUTIONS SDN BHD
Mac 2022 - Present
Front End Developer/ Creative Technology Analyst
Reason for leaving: -

Responsible for developing the front-end of clients' websites such as Proton, RHB Bank, TNB, Telekom Malaysia (TM), UEMS, and others. Collaborate closely with designers and back-end developers to ensure the UI/UX meets client expectations.

Key Contributions:
1. **Revamp Proton Website.** Develop the Proton website with a new look and enhanced functionality. This project covers almost 50 pages including all Proton car models such as Saga, Iriz, Persona, Exora, X50, x70 and X90.
2. **Build Nippon Paint Microsite for multiple Campaigns.** Create a microsite for Nippon Paint to showcase a variety of products during the Hari Raya, Deepavali, and Chinese New Year campaigns in 2022 and 2023. The campaigns feature nearly 17 different themes.
3. **Web Enhancement for CASA RHB Bank.** Build a pages for RHB products such as debit cards, credit cards, personal financing, zakat and more. Also, succeeded in making web enhancement for "Current Accounts and Savings Accounts (CASA)" products.

KUMPULAN APLIKASI SEMPURNA SDN BHD
Oct 2019 - Jan 2021
Front End Developer
Reason for leaving: Professional development

Aplikasi Rekrut, a recruitment department, entrusted me with designing and developing the front-end for Pickus, a job portal for the Malaysian market. Collaborate with the Pickus development team to enhance the portal's features.

Key Contributions:
1. **Maintain Aplikasi.us website.** I do web developer task in Aplikasi. This includes conducting regular updates, backups, upgrading website security, and fixing the website after any hacking incidents.
2. **Develop and Maintain Pickus.io.** I am responsible for resolving any front-end bugs discovered on the portal. Additionally, we add at least one new feature to the platform every month.
3. **New design for Pickus 2.0.** I addressed several flaws discovered in Pickus 1.0, including issues with user experience and design. As a result, I created a new interface for Pickus 2.0. This involved designing in Figma and developing the front end for the portal.

WORK EXPERIENCE (Cont..)

2EN APPS SDN BHD   **Feb 2019 - Aug 2019**
Web Developer (Internship)
Reason for leaving: End of internship period

Responsible for developing and designing the UI /UX for project based on the requirements and business logic provided by System Analyst (SA). The projects are i-Akaun (Accounting system) and NTP107 (Ticketing system).

Key Contributions:
1. **Project Lead for MyMajikan.** I led a group of developers consisting of 4 people to develop a web system called MyMajikan. Through this project, I am responsible for planning, managing, responsible to the front-end development and ensuring that this project meets the requirements.
2. **Served as a "face" of the organization**. Participate in User Requirement Session (URS) for i-Akaun (Accounting system) with Majlis Bandaraya Shah Alam (MBSA) involves 12 modules.
3. **Turn ideas into a design.** I am converting URS into wireframes, mockups, prototypes for a project like i-Akaun (Accounting system).
4. **Turn a design into code.** I am developing a User Interface(UI) for MyMajikan, i-Akaun and doing front-end development for MyMajikan with Laravel blade.
